

**All Ball Valves
ARE NOT
Created Equal**

WolverineBrass

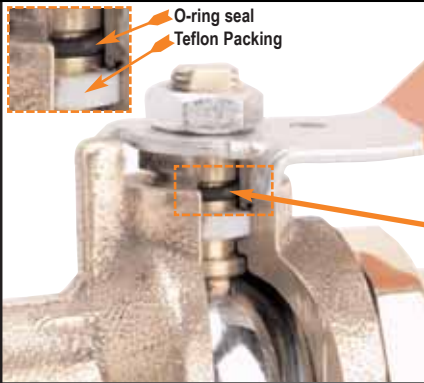

HEAVIER BRONZE BODY

Versus the competitions imported valve as shown on the cover

OVER A 1/2 POUND HEAVIER!!!

Our 3/4" sweat valve weighs 8.5 oz more, plus ALL WolverineBrass valves are rated at 600 lb. WOG (water-oil-gas) & 150 lb saturated steam

EXCLUSIVE O-RING & PACKING STEM SEAL

In addition to a teflon stem packing with adjustable packing nut, WolverineBrass 3/4", 1" & 1-1/4" ball valves feature our **EXCLUSIVE O-Ring stem seal** which assures **DOUBLE SAFETY** against leakage around the stem.

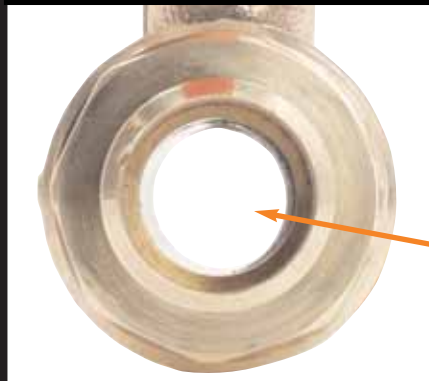

This same feature is coming soon to our 1/4", 3/8", 1/2", 1-1/2" & 2" ball valves

HEAVIER & LONGER E-Z GRIP HANDLE

HEAVIER & LONGER IS BETTER...
...when it comes to ball valve handles.

Giving the end-user a **BETTER GRIP AND BETTER LEVERAGE** for easier on-off operation.

FULL PORT DESIGN

Our 1/4", 3/8", 1/2", 3/4" & 1" ball valves feature a **CHROME PLATED MACHINED BRASS ROD BALL WITH TWO NON-STICK TEFLON SEATS** for a full port flow.

100% AIR TESTED UNDER WATER

All WolverineBrass **MADE IN THE U.S.A.** ball valves are manufactured in Wolverine's plant in Conway, South Carolina and are 100% air tested under water assuring you a **100% Quality Valve**

All of Wolverine's valves reflect a long standing company commitment to the use of highest grade materials, exacting workmanship and rigid inspection and testing standards.
